

Dear Colleagues!

The following document serves as a guideline for authors for preparation and submission of their papers.

The easiest way to submit your paper for publication is to send the paper and registration form prepared, and filled in, in accordance to our requirements to one of the following e-mail addresses:

seanewdim@gmail.com

The papers submitted according to the guidelines and [editorial policy and ethical principles](#) will be sent on a double-blind peer review. The review process consists of two main stages.

In the first stage, during the preliminary review our editors review whether your paper is edited in accordance to our guidelines. If the editors find that the submitted paper does not meet the requirements, they send it back to author for correction. If the paper meets the requirements, it is sent for a review to our reviewers.

According to the reviews given by reviewers, the editor may send the paper back to the author for correction, accept the paper for publication, or reject it.

The author is notified about the decision via e-mail in any case.

The complete review process usually takes up to no more than 20 days.

If the paper is returned to the author the review process starts anew, after resubmission of the paper.

In case of acceptance, the author has to pay a publication fee. The publication fee for a paper of 5 pages, written in accordance with the guidelines is 50 €. If the paper exceeds the volume of 5 pages, an additional fee of 6 €/extra page is applied.
